**Save time & money** by purchasing all your chemicals in one easy package. Plant Tech would like to simplify your lawn and bed maintenance. We have gathered the fertilizers, insecticides and herbicides needed for your lawns and flower beds throughout the year. Make one purchase and our monthly newsletters will remind you when its time for application!!

**Flower Bed Maintenance**— 50 lb. 12.6.6 Fertilizer, 23 lb. Bug Blaster and 35 lb. Dimension need to be applied every three months. March, June and September.

12.6.6 provides the necessary nitrogen, phosphorous and potassium needed by your trees and shrubs.

Bug Blaster controls ants, fleas, ticks, worms and a plethora of other insects that can wreck havoc in your yard.

Dimension is a pre-emergent herbicide that prevents weed seeds from germinating in your flower beds.

**Lawn Maintenance**— GroSmart is a three part system, specifically designed for our climate. The three distinct blends target the specific needs of your lawn during the spring, summer and fall. Additional bags may be required depending on your square footage.

\*\*\* If you choose to do a Weed and Feed in the spring, that product can be substituted for the Spring GroSmart.
