JUNE 2012

— Summer Application —

June is an important month for your yard. During the heat of the summer your trees, shrubs and lawn need special attention. To keep your yard protected and treated it is time to REAPPLY your Fertilizer, Pre-Emergent Herbicide and Insecticides. **Remember the trick to these chemicals is to apply every three months. March, June and September.

BEDS, SHRUBS AND TREES:

Florikan 12.6.6. is a great all purpose fertilizer. This should be applied to your flower beds, trees, shrubs and seasonal color.

LAWN:

Whether you applied the GroSmart spring step or Weed and Feed this Spring; now is the time to apply the GroSmart Summer step 2 on your lawn.

— **ONLY \$ 12.50 for 1,700 sq. ft.**

***If you are still having weeds pop up in your lawn you can spot spray with Weed Free Zone during these warm months.

**Make application a breeze with a hand spreader.
\$ 19.00**

Dimension is a pre-emergent herbicide that prevents weed seeds from germinating in your flower beds. Sprinkle over your existing beds every three months year round.

Bug Blaster is a granular insecticide that should be applied to your flowerbeds and yard to keep out most bugs and insects.

ALL of these products are available at **Plant Tech**
