

## Seasonal Color

“Deadhead” or remove the dead or spent blooms on your seasonal flowers. This will encourage more flowering and improve the general appearance of the overall plant.

Reapply a monthly fertilizer to your seasonal color to encourage blooms.

**Summer  
annual  
color still  
available.**

## Weeds

Stay on top of your weeding during the heat. Get out in your yard in the early morning or late evening. If you have not applied a pre-emergent. Do it now! Every three months is key!

**Nutsedge** is an aggressive weed this time of year. Don't pull it! Pulling it will cause it to spread. Instead, apply **SedgeHammer**. The new formula includes the surfactant. Mix with water and apply.

**Sedgehammer** doesn't affect any other trees or shrubs.

## Mosquito Problem?!?

First, Remove all standing water around your yard. Next, Apply **Mosquito Beater** to your yard or gardens.

The all natural formula will repel mosquitoes, gnats and flies for up to two weeks. Great for parties or family gatherings.

Pleasantly scented and easy to apply. Contains cedar oil, citronella, and geranium oil and lemongrass oil.

**-Treats 5000sq. ft.**
