Monday- Saturday

— Winterize you lawn —

Time to Fertilize your lawn

Gro-Smart-Step 3 Fall Application 5.12.16

A fall application of fertilizer helps your lawn recover from summer stresses and prepares the turf for dormancy.

A “winterizer” helps provide a high level of Potassium to promote hardiness and improve turf health for the winter.

This product combines traditional controlled release and activated bio-solids to provide a complete lawn food. One bag treats 2700-3500 sq. ft.

— Fall Seasonal Color —

Dianthus

Snapdragons

Cabbage, Kale

Petunias

Grown Locally, we provide healthy plants with a strong root system. Our green houses plant continuously, providing fresh crops weekly. Check our availability online at www.PlantTechBR.com and call to reserve your order.
